Dear [redacted]

Sorry to trouble you again on this but they have now asked for Thieves and stretching down into the southern nomanshill section as well, would you be kind enough to ask [redacted] if he could do another plan for that area please. It is short notice but I am meeting them next Tuesday PM and it would be great to have the plan to hand then if possible?

thanks

Hi [redacted]

Here is a link (email from [redacted] below) to all of the maps within the Ineos survey boundary. The legend doesn't always specify what species is recorded but the pdf explaining the categories will narrow it down.

Any questions, give me a shout.

If you have time, please have a look at the attached before tomorrow.

I could not email this to you before now as I needed to meet with and his agent first and for them to approve sending this to you.

Kind Regards

Subject: RE: INEOS UPSTREAM LIMITED - PROPOSED WELL SITE - THE WELBECK ESTATE COMPANY LIMITED - LAND AT THEIVES WOOD CLOSE TO RAVENSHEAD RENTED TO THE FORESTRY COMMISSION

Without prejudice & Subject to contract

Dear

I have spoken to [redacted] yesterday and whilst there may be the potential for a tripartite agreement, there is a lot of further information that both FC and I believe Welbeck require from you before we would be in a position to take any decisions on this and we concluded at this stage that we would like to meet separately with you.

Regards

Thanks for this.

Have you spoken to [redacted], ?

I am not sure of the relationship and whether we can enter into a tripartite agreement with all three of us ?

I spoke to [redacted] yesterday and offered a meeting for next week but presumably Welbeck need to be agreeable first ?

Kind Regards

Dear _____

This email is sent without prejudice to the Forestry Commission position on this matter generally and does not indicate a confirmation of any intention to proceed with the well site but is intended to make our proposed meeting as productive as possible.

Initial feedback from our beat forester _____ is that the location indicated below edged in blue and with the arrow would be much better than the one you had indicated. There would be a lot less impact on public recreation routes and therefore less push back from the public. We also have a lot of anti social behaviour in that area and your proposed use would move that on, which again could be a positive for you. Would you be kind enough to assess whether this would be a suitable alternative site for you please?

Look forward to discussing when we meet.

Regards

S

and

I write to you with regard to the above and to confirm that my clients are seeking a proposed well site on your above referred to property at the location shown outlined in red on the attached plan.

I attach a relevant brochure giving information on the same and proposed heads of terms.

I would welcome a meeting with you both at an early date (possibly next week) to discuss the same and what the percentages mean.

My clients would like to complete an Option Agreement on the terms referred to in the attached before Christmas.

I would appreciate your help and assistance in being able to achieve this.

Kind Regards

Managing Director

Dear

Our internal procedures require that I submit a report to national office for secretary of state approval for entering into the testing licence. I would like to get that submitted on Tuesday afternoon after we have met but to do so I need confirmation from you that the draft licence that has been in circulation is agreed by your client along with confirmation of the licence fee payments that you are proposing to make to FC and I would be grateful if you could bring this information to the meeting please?
