CLIMATE. YOUTH. SOCIETY.

Leadership programme

Climate. Youth. Society. is our activist leadership programme for young people who are working class, racialised and/or disabled. Over the course of a year you'll be mentored by an experienced social justice campaigner and receive training in the skills you need to become a confident and successful activist. You'll put those skills into practice by launching a campaign of your own, with support from Friends of the Earth.

Search the internet for 'Climate. Youth. Society.' for more:
